#### PLYGO, THE FOLDABLE STAND FOR LAPTOP & TABLET: DESCRIPTION AND INSTRUCTIONS SUMMARY (details at [www.plygo.eu/2020/](http://www.plygo.eu/2020/))

The main components of the foldable laptop stand **PlyGo** are a small central plaque, 2 transversal L-bars, 4 legs, 2 rotating arms covered by Velcros of the "hook" type, and 6 bolt-washer-nut coupling elements. For a good hold of the laptop or tablet on **PlyGo** arms, it is recommended that you stick well to the bottom of the laptop or 4 or 6 of the "wool-loop" Velcro strips supplied (then wait at least 24 hours before placing the laptop on the arms)
